

I wish you were having a meeting near where we live. Since you are not, I want you to know that we strongly oppose any more of the media becoming any larger than they already are. We need more news, not less, and we don't need it filtered through a conglomerate. If I read a newspaper, I find it annoying to have the exact same take on any number of subjects, as the radio and the TV. Thank you for taking the time to tour the country for comments, and for requesting our feedback to your proposed changes in who can own what and how much they can own.
